Truly holistic care

Georges Estate is committed to the pursuit of excellence in the provision of care and accommodation to the aged in our community.

The move into residential aged care is often a period of great change, and we are committed to making the transition as easy as possible. When it comes to care, we embrace what makes every person unique – from personal preferences to culture and hobbies. We care for people from all walks of life, and work hard everyday to ensure that every individual in our care feels safe and secure.

It is our mission to provide care that enables people to live their life the way they choose, focusing on person centred care, attending to a person's physical, emotional, social, cultural, spiritual, financial and environmental wellbeing.

Our accommodation and care offerings consider the varying needs of older Australians and include high and low care options for individuals and couples; specialised care services, including dementia care; and home care services for those that choose to remain in a residence of their choice for as long as they are able.

You can be sure that you or your loved one will be well-looked after by our compassionate and dedicated care teams, with the added peace of mind of 24-hour care by registered nurses, who are supported by a dedicated multidisciplinary care team.
